TMT NEWS ANNOUNCES WINNERS OF THE 2016 TECHNOLOGY AWARDS

United Kingdom, November 1st 2016- TMT News magazine announces the winners of the 2016 Technology Awards.

Advances in Technology have paved the way for efficiency, cost effectivity and have provided firms with an invaluable reach to clients and customers in all corners of the globe. Recent years have seen significant technological changes in the fields of communication and innovation and have altered the way the business world consumes and perceives. As the world of technology continues to grow, it's role in the modern-day life and business cannot be overstated.

Our 2016 Technology Awards highlight these key players, individuals and innovative firms who have provided the world with new, cutting-edge techniques. We have cast a centre-stage spotlight on those, who through determination, commitment and hard work, have developed and shared their ideas to fundamentally evolve the business world and the lives of consumers and customers for years to come.

Speaking about the programme Kaven Cooper, Awards Coordinator, stated: "The technology industry is a vital aspect of our lives, and those who work within it are responsible for the livelihoods of thousands, if not millions, of people who depend

upon their products for their business and personal lives. As such I am proud to recognise our deserving winners, and would like to wish them every success going forward.”

To find out more about these prestigious awards, and the dedicated professionals selected for them, please visit <http://www.tmt-news.com/> where you can view our winners supplement and full winners list. <http://www.tmt-news.com/2016-netstairs>
